

# ROCKET SCIENCE

We are Rocket Science.

A new, ethical photography agency and creative studio. We represent a network of artists that are unrivalled in their diversity, location and talent.

We believe that incredible content from photography and video should come from the world's most exciting creatives, we have the

Our team provides a full service from securing the opportunity to work with our talent, to helping you develop a creative approach, production, partnerships, licensing and branding. Our team has over 20 years experience combined in working closely with brands, organisations, NGO's and charities to deliver outstanding visually led content.
